# Why choose SC?

# 05.

---

## **8.1kw lithium battery pack**

Spend less time charging and more time on the course with the largest capacity production pack ever.

---

## **72 volt**

450 amp controller and 7.5kw AC motor makes this the most efficient and powerful vehicle in its class.

---

## **4 disc hydraulic brakes**

The first golf specific cart to come standard with 4 disc hydraulic brakes, ensuring our customers area always in control.

---

## **EM brake**

With the automatic park brake, there is no concern of run away carts.

---

## **Softech suspension**

Making the ride more enjoyable for each player means a happy round of golf.

---

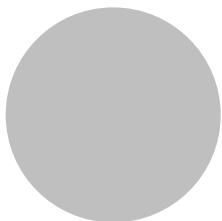

## **Custom colours available**

We can custom paint your vehicles any color you choose.
